Series 5100 Slide Door Recessed Panic Device Specification Details

Feb2020

RECESSED EXIT DEVICE

- * The minimum Housing length (Door Rail) that can be used is 23" until the Device will need to be cut down. That minimum is 16".
- * Fits Door Panel sizes from 26" (Narrow Stile), 29" (Medium Stile), and 32" (Wide Stile) up to 48" Maximum. Consult factory for minimum Frame sizes.
- * Push Bar releases the Breakout Latch.
- * Push Bar protrudes only 5/16" from surface of door panel. Dogging is not required.
- * Can be used on inside or outside slide configurations.
